

## Phase One: Sitework and Parking Expansion

Our Lady of the Lake is pleased to announce we are ready to begin Phase One of our Building in Faith project. Phase One consists of the site work and parking lot renovation. The parking lot and sitework will begin in June, and completed in early September. Funds raised for the Building in Faith capital campaign will pay for Phase One in its entirety, thru financing with Parish Funds Trust.

This first phase will provide 25% more parking for the parish and school. The demolition of the two houses at the corner of Evergreen and the alley are included in Phase One. The new parking lot will have two exits to the west onto Eighth Avenue and retain the exit to the alley on the east side. The playground equipment will be moved and reinstalled slightly to the East of its current location. The site work includes landscaping on Evergreen Avenue and Eighth Avenue.

### Phase One in June 2010 to September 2010

- Site work and parking lot need to be completed in the dry summer months
- With pledges completed to date we have the necessary funds to complete Phase One
- Beginning Phase One now, enables us to continue fundraising for Phase Two and Three and reach our goal of starting construction on the building in Fall 2010
